

Reports to support data-driven instruction

JFY provides administrators and teachers with data on student performance regularly during the academic year. Data-driven instruction is the most effective way to guide learning. JFY Learning Specialists provide interim and year-end reports so that teachers can measure learning gains and assess the effectiveness of instruction.

Annual Report

Sub Group	0 - 8:59 hours avg score	# Students	9:00 - 17:59 hours avg score	# Students	18:00 - 23:59 hours avg score	# Students	Total # in JFY Program
All Students	43	60	49	130	48	37	227
High Needs	40	51	47	88	49	59	198
Ever ELL	41	38	49	93	49	27	158
Economically disadvantaged	42	37	48	60	51	29	126
SPED	36	14	49	93	46	10	117

Quarterly Report

The screenshot shows the 'JFYNet Training Class' dashboard. It features a 'Tasks' tab with a 'Last 30 days' filter. Key metrics include 15 tasks assigned, 9% participation, 3m time avg, Developing mastery avg, and 7% grade avg. A completion average of 15% is shown with a progress bar. A table lists tasks with columns for task name, completion avg, participation, result avg, time avg, and due date.

TASKS (15)	COMPLETION AVG.	PARTICIPATION	RESULT AVG. @	TIME AVG.	DUE DATE
Algebra 1 Test V2 World of Math - USA - 2017 Edition 5 students		0/5	—	—	Active 28 May 2020 1:00pm
Algebra 1 Diagnostic Test subset World of Math - USA - 2017 Edition 5 students		1/5	14%	2m	Past 18 May 2020 2:00pm
